# Seven Golden Rules

## for Prospecting

# 1.

### Obtain a Miner's Right permit

when prospecting on vacant Crown land (\$25 from any Mining Registrar's office).

# 2.

### Put safety first

- Make sure you have enough water, fuel, maps and first aid supplies.
- Give serious consideration to taking some form of telecommunications and a global positioning system to fix locations, and a Personal Locator Beacon (PLB) – it may turn out to be your most important safety device.

# 3.

### Obtain a 40E permit

prior to prospecting within an exploration tenement (if you don't have written permission from the tenement holder).

# 4.

### Get written permission

from the tenement holder when prospecting on:

- a mining lease
- an exploration licence (if you don't have a 40E permit)
- a prospecting licence

# 5.

### Comply with all legal requirements

when prospecting on a pastoral lease. You cannot prospect within 100 metres of any occupied building or within 400 metres of any livestock watering point without the consent of the pastoralist.

# 6.

### Show respect when on Crown land

because it is used by other people or set aside for many purposes.

# 7.

### Fill any holes

that you dug and repair ground that has been disturbed.

**DID YOU KNOW** ... that the maximum penalty for an individual prospecting illegally is \$150,000

- For more information about prospecting, please visit your nearest Mining Registrar's office to obtain a copy of *Prospecting in Western Australia* or download it from: [www.dmp.wa.gov.au/prospectingwa](http://www.dmp.wa.gov.au/prospectingwa)
- To find your nearest Mining Registrar's office, please visit: [www.dmp.wa.gov.au/regionaloffices](http://www.dmp.wa.gov.au/regionaloffices)

[www.dmp.wa.gov.au/prospectingwa](http://www.dmp.wa.gov.au/prospectingwa)

# EDITORS CORNER

Hello Cue,

Another big month at the Cue CRC. The amount of visitors we had in August exceeded the amount in July, it's fantastic that in these times we are getting so many visitors through the doors and we're hoping for more of the same for September and October.

Who went to the Trivia Night? If you didn't, you totally missed out! We had five full tables and one table with only two people on it, so around 32 people attended and helped raise almost \$300 for the Royal Flying Doctors Service. The Cue CRC had a few other donations through the month of August so we added that to the total to make the grand total of \$331.00.

We want to thank everyone for attending and making the night the success that it was. With thanks to Jenni and Ian Dennis for organising the event, Cue Roadhouse and the Queen of the Murchison Café for donations that were raffled off and used in our winners prize and Sue Kirkham for helping me collect money on the night. We would also like to thank those that made cash donations.

# **INK CARTRIDGE RECYCLING!**

Bring your empty ink cartridges to the Cue CRC and we'll send them off to be recycled.

# FROM THE CEO

After several years of planning, the Shires of Cue, Meekatharra, Murchison, Mount Magnet, Sandstone, Wiluna and Yalgoo will be celebrating the launch of the Murchison Georegion with a formal ceremony to be held in Mount Magnet on 18 September. Georegions are areas with significant geological features, specifically targeting the worldwide popularity of geotourism. 21 key geological sites across the seven Murchison local governments have been identified, 6 of which are located in the Shire of Cue. These will be promoted through brochures, interpretive signage and an interactive smart phone app. Further developments may include the provision of visitor facilities at several of the sites as the Shires work towards recognition of the georegion as a UNESCO Global Geopark. There are currently 161 UNESCO Global Geoparks in 44 countries, none of which are located in Australia.

The refurbishment of the old Railway Station building, which is being restored and repurposed as a Youth and Community Centre with assistance from Lotterywest, is nearing completion. Once the building is complete and fitted out with equipment, the Shire will be advertising for a part-time Youth Coordinator to provide after school, weekend and holiday programs.

Work is also continuing on repairing and refurbishing the Bank of NSW, purchased by the Shire last year. Council is inviting input from the community regarding ideas for the use of this building. Suggestions so far include offices, a restaurant and a bakery. The Shire is willing to fit out the building appropriately and offer an attractive rental to accommodate a suitable business that will be beneficial to the community.

At their August meeting, Council adopted the 2020/21 budget, adhering as near as possible to the position of a 0% increase in fees, rates and charges to assist in the economic recovery from the impact of COVID 19. Ratepayers should expect to receive their rates notices very soon.

If you have ever considered purchasing a block of land in Cue, now is the time to act. Development WA, formerly Landcorp, have reduced the price of residential lots in town from \$15,000 to \$10,000. New flyers are currently being prepared detailing the lots available.

Barefoot bowls are now on at a new winter timeslot of 1pm on Sundays. Everybody is welcome, with plenty of bowls available for those who do not have their own. Come along to learn (it's not that challenging), meet new people and have some fun.

Upcoming events:

18 September - Murchison GeoRegion Launch

8-15 November - NAIDOC Week

Friday 27 November – Cue Parliament

**Rob Madson**

**Chief Executive Officer, Shire of Cue**

**Next ordinary Council meeting - 6:30pm Tuesday 15 September 2020**

# POLICE BEAT

## Traffic

G'day good people of Cue and our lovely visitors. Here's again hoping this edition finds everyone in our Cuemunity in fabulous health.

As per the norm we Cue Cops spend most of our work time out and about patrolling the highways north and south of Cue and mostly within our shire boundaries, searching for that common species, the speeder. Sadly, for us, they are more common on our country roads than a flock of seagulls are around a bucket of discarded chips.

It never fails to baffle me, why people have to do the break neck speeds to get from A to B! Just ease back from the accelerator and chuck the cruise on, if you have it and enjoy the journey relaxed knowing you will not cop a fine and some demerits. It really is that simple.

We still are drug testing drivers in the Cue area so if you partake then don't drive! Alcohol driving limits are now "Blow as you go" as we in WA are now in line with other states and territories, so again know your limits and stick with them or even better get the deso driver organised!

Just a note folks, that just over a week ago (Mid-August) we had a fatality just south of Cue, whereby a young 30 something lady, lost her life as a result of a traffic crash. WA Police's major crash are currently dealing with this sad incident so hopefully we will be apprised of the circumstances leading up to the crash, once their inquiries are concluded.

I need to give a BIG shout out of appreciation to the volunteer AMBO's, FESA, WEST GOLD emergency staff and our resident NURSE Raelene, who all did terrifically well, under some stressful circumstances. It is never easy seeing and dealing with these types of incidents and being mostly volunteers, YOU ALL did an amazing job and most definitely saved lives.

## Crime

Well done to the majority of you good people of Cue for maintaining Cue's reputation as being a safe and friendly town in which to come live, work, visit and even stop over for a bit of prospecting or sight-seeing, during your commuting through these parts of the state.

We have and continue to have incidents whereby property is being damaged resulting in \$1000's of costs to the poor owners through no fault of their own and it really needs to stop.

If it doesn't belong to you or you don't have the owner's permission, then leave stuff alone. Go do something constructive instead of destructive...you will get more lasting thrills from the latter!

School is still going so make sure your children are going! Education, education, education it is the new orange honestly.

## **Community Policing**

As previously mentioned and from a Police and Cuemunnity member point of view, it is always nice, that even under adversity, Cuemcommunity members rally together and it is always good to see and sorry if I'm harping on but I just cannot say this enough.

Social bowls are back and take place on a Sunday arvo from 1 pm at the Shire recreation hall bowling green.

By the time this edition comes out, there will have been a funeral for a young child, who sadly passed in Geraldton and a birthday party taking place in Cue on the 28<sup>th</sup> and 29<sup>th</sup> August respectively and I hope it will all go well and without incident? My fingers will be crossed that is the case.

Just a reminder to the Cuemcommunity and tourists alike, to be mindful with regards the security of their property. Lock it all away especially with the number of persons travelling through our town on a daily basis as you will never know a person's prior history! Better to be safe than sorry.

## **Quote of the month**

"I wasn't planning on going for a run today...but those cops came out of nowhere!"

Senior Constable Martin REID  
Cue Police Station.

# CUE PS CORNER

Term Three continues to be very busy at Cue Primary. Lots of Hands on Learning, Checking our Behaviours, Excursions and Attendance Reward Afternoons. Our school students look fantastic when they are wearing our school uniform and demonstrating **Respect: Resilience and Responsibility**.

The excursion to Mt Magnet to train with Damien Martin was a super success. The Shire bus was filled with eager students, happy family members, excited staff and a lovely volunteer driver. It was a brilliant morning - lots of drills and skills with Damien who commented “Cue kids are great”

This term Cue Primary commenced, The **Stephen Michael Foundation “Rising Stars” program**

Each Wednesday Wesley, from Meekatharra District High School, comes to school to work with our students on **Resilience**. His program involves skills and drills needed to play a successful game of footy. We are also developing team work, bouncing back – resilience – during these drills and matches and learning how to be a Good Sport. The students really look forward to these sessions and we are all proud of our “Rising Stars”

At school we are continuing with our **Healthy Eating Cooking Program**. Students plan their recipes, write the procedures, work on grammar and sentence structure, cook and eat their creation. To celebrate this program, the staff planned a Master Chef Cook Off, with new aprons, and guest judges Julie, Martin and Brock. The winner was Tracy who cooked a delicious and tasty fried rice. Congratulations Tracy!

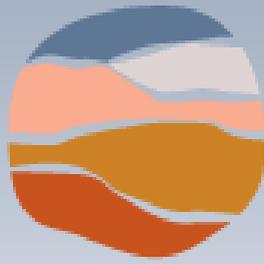

**TEAM WORK at Cue Primary = RESPECT + RESPONSIBILITY + RESILIENCE**

In Week 4 the staff planned for an Attendance Reward Afternoon – a fun reward for all students who had reached their goal of 90% or more attendance. Wow, we had a fun -filled afternoon at Brockman Park to celebrate our positive attitude to attending school.

Till next time, bye for now  
Mrs K  
Principal

# murchison georegion

WESTERN AUSTRALIA

Murchison community update  
June 2020

*Ancient lands  
Brilliant skies*

## **The Murchison GeoRegion is Australia's first major geotourism development**

The Murchison GeoRegion harnesses the subregion's incredible geology, natural landscapes, biodiversity (flora and fauna) as well as culture (Aboriginal and non Aboriginal) to offer unique experiences to a growing national and international geotourism market worth millions of dollars.

The GeoRegion connects 21 key geological sites across the seven Murchison local government areas to draw people into each community, providing new markets and opportunities for local people (particularly Aboriginal people), businesses, schools and community groups.

The concept was first identified at a FACET (tourism) conference in Mount Magnet (2009) and was formalised in 2014 / 15 via the MidWest Regional Blueprint and Mid West Tourism Development Strategy. Through engagement and consultation throughout the Murchison, geotourism was confirmed by local people as a significant future economic development opportunity.

The seven Murchison local governments drove this project collaboratively, with support from external agencies and stakeholders. All seven Councils have endorsed the Murchison GeoRegion, that is the Shires of Cue, Meekatharra, Mount Magnet, Murchison, Sandstone, Wiluna and Yalgoo. Organisations and residents across the Murchison region have shared their expertise and materials.

Through 2019 and 2020, stage 1 of the Murchison GeoRegion project was developed. This comprises consistent branding and designs, site research, brochures, an app and a website. These will be released once inter-regional borders are relaxed, following the lift of COVID-19 restrictions.

With regional and intrastate tourism expected to see significant growth in the near future, this presents a wonderful opportunity for Murchison businesses to leverage off something new and unique, which is now ready for launch. Once interstate and international borders are relaxed, Murchison businesses could be well positioned to continue that growth.

An opportunity and challenge now exists for businesses to develop new ideas, attractions and tourist packages (tours etc) based on geotourism. Having a plan for recovery, built on new product offerings and markets, makes a lot of sense for all regional businesses.

Future stages of the project are expected to include the following.

- Signage and visitor infrastructure at each site
- Marketing and promotional activity / materials (advertising, merchandise etc)
- Digital media including virtual / augmented reality, enhanced digital storytelling
- Tourism product development and business development support
- Progress towards hosting Australia's first UNESCO Global Geopark in the Murchison. There are 147 UNESCO Global Geoparks in 41 countries, but none in Australia so a Murchison geopark would be a unique global addition

For more information, please contact your local government or visit [www.murchisongeoregion.com](http://www.murchisongeoregion.com)

## Frequently Asked Questions (FAQs)

### What is geotourism?

Geotourism is an emerging global economic development opportunity, with tourism based on the geology and landscapes that shape the character of a region. Geotourism demonstrates how geology shaped the natural environment (flora and fauna) and its use by traditional Aboriginal owners and European settlers. This is referred to as the geotourism 'ABC' spectrum.

- A. Abiotic (non living) – geology, landforms, astronomy and climate
- B. Biotic (living) – flora and fauna
- C. Culture (people) – Aboriginal and non Aboriginal – past and present

By drawing connections between geology and landscapes, biodiversity, astronomy and its relevance to Aboriginal culture and European settlement in the Murchison, geotourism can add a completely new dimension to the regional tourism experience. It can add significant new value to existing experiences (wildflowers, Indigenous art) and create new economic opportunities for local communities, notably Aboriginal people.

### How can geotourism help my business?

The Murchison GeoRegion is focused on new economic and social development opportunities for people and businesses in the subregion. As Australia's first geotourism development it will draw national and international interest. It will target increased rates of visitation, spending per visit and duration of stay. It will appeal to specific high-value tourism markets and provide opportunities for attraction of external private investment.

Most importantly, the benefits will be localised within the Murchison, for those businesses, community groups and individuals that are proactive and seek to capitalise.

### Why is the Murchison the perfect place for geotourism?

The Murchison is one of Australia's most diverse mineral provinces, including the oldest minerals on the planet (Jack Hills); the world's oldest working mine site (Wilgie Mia) and WA's longest surviving gold mining settlement (Mount Magnet). It shows features of formation and climates some 50 - 150 million years old (Eocene, Paleocene, Cretaceous and Jurassic ages) and may have landscapes almost 300 million years old, during the period when the region was covered by ice and glacial lakes.

The Murchison has evidence of colliding continents and the formation of mountains, with dinosaur fossils and gigantic ancient scorpions (Eurypterids). Few sites in WA boast such a long-lived history, which also presents significant opportunities for research and learning.

Even the name "Murchison" has a strong geological basis, honouring the 19th century's most influential geologist in the British Empire – Sir Roderick Impey Murchison, who sponsored the expedition by George Grey in 1839 and later urged geologists to seek gold at the Murchison River.

### What do I need to know about geotourism to help it succeed?

Please download the new Murchison GeoRegion app and explore the region from your smartphone. Try and see things from the visitor perspective.

The key for most visitors will be the 'C' – Culture (people). Visitors to the Murchison want to know your stories and those of people who have lived there for generations. Most residents will have strong connections to the land and geology in some form. Learn what you can about the 21 sites and try to add to visitors' experiences by enhancing that human interest and connection.

# INDIGENOUS LADIES MORNING TEA

Indigenous ladies of the community are invited to come and have a cuppa with us. Share some stories, have a laugh, recharge your batteries and enjoy a lovely morning tea provided by the Cue Community Resource Centre.

Friday 25th September  
9.30am to 12.00pm

Also on the day will be:  
Gillian Kelly, Paralegal - Nyarlu Miyarnumalgu Indigenous Women Outreach service.

# Hon Robin Scott MLC

## Member for Mining and Pastoral Region

***I am the VOICE for YOUR thoughts!***

For those of you that don't know me I am Hon Robin Scott MLC. I was sworn in on 22 May 2017 as a Member of the Legislative Council of Western Australia, representing Mining and Pastoral Region for Pauline Hanson's One Nation.

I would like to start by saying for the past thirty years I have been interested in politics, and just like you I have been forced to vote at every election for the best of a bad bunch. Being a father of two and grandfather of six it motivated me to maximize my contribution as a parliamentarian. I'm here for the people of my electorate not the people of the house. I am here help repair our political system, defend our Australian way of life and maximize opportunities for fellow West Australians. The major parties have condoned the deterioration of our manufacturing industries and are slowly strangling our mining, agriculture and pastoral industries. We have every natural resource the world wants and we still can't eliminate poverty in Australia, due to poor management by politicians."

### ✓ Achievements

- ✓ **Blocked - The State Government's proposal to raise the gold royalty** - In 2017 I was Successful with the Disallowance Motion which defeated the Government's attempt to increase the Gold Royalty by 50%. Which I think is an absolutely fantastic win. I am determined to protect and promote mining and lead the defence against water charges for prospectors and small miners.
- ✓ **Granted - License for an MRI Machine in Kalgoorlie-Boulder** -Alongside Senator Georgiou we secured the Medicare license for the MRI machine in June 2018 after leading a strong advocacy campaign alongside WA One Nation. Although our town is still waiting for the MRI Machine i reassure you that I will continue to ask the question and update my electorate as to when we can expect it to be operating.
- ✓ **Granted - Funding for Palliative Care** - I accomplished a desired result with obtaining a multi-million-dollar funding injection for Palliative care in regional WA. I was disappointed to hear that the government had again let our people down with in the health department and knew that people deserved to die with dignity.
- ✓ **Blocked Removal of Education components with School of the air** - I won the fight with members of the cross bench when the state government proposed that they wanted to remove critical education components with School.

### My To Do List

- **Advocating the PHON plan to subsidise apprenticeships by 75% in the first year, 50% in the second year and 25% in the third year.**
- **Investigate unfair Native Title Claims**
- **Create Suitable accommodation in regional towns for remote community visitors.**
- **Continue to follow up on the current status of the MRI machine for the Kalgoorlie Health Campus.**
- **Begin the construction on the Kimberly Water Pipelines.**
- **Bring Royalties for Regions back to Regional WA.**
- **Continue to push for the Wiluna to Meekatharra road to be sealed.**

Department of  
Transport

Please follow any COVID—19 safety rules the Cue CRC has in place. The rules are in place to keep everyone safe.

## DoT Remote Services will be visiting CUE

**When:** 7th September 2020, 1pm - 3pm

**Where:** Cue Community Resource Centre

### We will be able to help you with the following services:

- theory test
- photo card applications
- driver's licence applications
- change of address
- registration and driver's licence renewals
- vehicle transfers
- return of vehicle plates
- driving assessments

To enable us to help you, please ensure you bring your birth certificate, Medicare card, bank card and two types of proof of residency, along with cash or card for payment.

**For enquiries please call:** Karen 92168194

### Sometimes quicker is better with **DoT Direct**

Whether you're renewing your licence, transferring vehicle ownership or checking your demerit points, **DoT Direct** is quick and easy to use wherever you are.

Start saving time by visiting [www.transport.wa.gov.au/dotdirect](http://www.transport.wa.gov.au/dotdirect)

# TASTY J'S

## FOOD FOR THE SOUL

Located in the Cue Oasis (corner Victoria and Austin St), Tasty J's is offering fabulous home cooked food every Friday and Saturday night from 6pm.

Fast Fridays is all the delicious fast food you could ask for - smokey pulled pork burgers, kebabs, pizza, coconut prawns and more. Saturday nights are theme night - Italian, Indian, Chinese, Mexican, you never know what's cooking!

Follow us on Facebook @TastyJsCue to see what's cooking next weekend!

# Beef, tomato & bocconcini salad

## Ingredients

50g butter, melted  
2 garlic cloves, crushed  
Sourdough baguette, thinly sliced diagonally  
4 beef sctoch fillets  
500g mixed tomatoes, halved  
120g baby rocket  
1 avocado, thinly sliced  
200g cherry bocconcini, coarsely torn  
2 tablesppons olive oil  
2 tablesppons balsamic vinegar  
basil leaves to serve

## Directions

### STEP 1.

Heat BBQ grill to medium-high. Combine butter & garlic in a small bowl. Season. Brush baguettes evenly with half the butter mixture. Brush beef with remaining butter mixture. Season.

### STEP 2.

Cook beef for 3 minutes each side. Transfer to plate. Cover with foil and set aside to rest for 5 minutes.

### STEP 3.

Cook the baguette slices for 1-2 minutes or until lightly toasted.

### Step 4.

Divide tomato, rocket, avocado and bocconcini among serving plates. Thinly slice beef. Arrange over the salad. Whisk the oil & vinegar in a bowl. Drizzle over the salad. Serve with the baguette slices.

# Gelato Pavlova

## Ingredients

4 passionfruit  
1 tablespoon icing sugar  
1 teaspoon grated lime rind  
500g pavlova base  
1.2L fruit sorbet  
1 kiwi fruit  
1 small mango  
60g blueberries  
Fresh mint sprigs, to serve

## Directions

### STEP 1.

Combine passionfruit pulp, icing sugar and lime rind in a small bowl.

### STEP 2.

Place pavlova base on a serving plate. Using a small ice-cream scoop, top pavlova with scoops of sorbet.

### STEP 3.

Decorate with kiwifruit, mango and blueberries.

### Step 4.

Drizzle pavlova with a little of the passionfruit mixture and top with mint sprigs. Serve immediately with remaining passionfruit mixture.

## CLUES

- Neither Jazlyn nor the person whose table is made of oak arrived on Monday.
- The person table is made of cypress arrived the day after Tristen.
- Of the person who arrived on Friday and Heidi, one has a chestnut table and the other is hickory.
- Of the person who dances the Charleston and the person who arrived on Tuesday, one has a walnut table and the other is chestnut.
- The person who dances the twist doesn't have a hickory table.
- The person who arrived on Monday doesn't know the habanera.
- Alison didn't arrive on Thursday.
- The person who has a cypress table arrived some time after Alison.
- The person who has a hickory table arrived before the person who has a hickory table.
- The person who dances the electric slide after the person who has a cypress table.
- The person who dances the twist doesn't own a cypress table.

# IT CAN'T DRIVE ITSELF.

**SUPPORT THE AMBULANCE SERVICE IN YOUR  
COMMUNITY, VOLUNTEER TODAY.**

**WHY VOLUNTEER?** By donating your time you can make a real difference and give something back to your community. Not only do you get the satisfaction of helping others, but you also gain important skills and experience. No matter what your motivation, being a St John Ambulance Volunteer is a great way to get involved in your community and help change lives.

**WHAT'S INVOLVED?** Driving ambulances, transporting patients, providing first aid or helping out with administration are just a few of the roles when you volunteer with St John Ambulance. As a volunteer you will be supported every step of the way and given all the training necessary to fulfill your role. Training is conducted to a level at which you feel comfortable, confident and ready to assist.

For more information on volunteering with us call St John Ambulance  
Cue Sub Centre on 0418 382 303 Monday to Friday 9am – 3pm.
